Our goal is to provide prompt removal of yard waste from your community. To assist us in complying with State and Federal requirements, it is important you adhere to the Michigan State legal definition of "Yard Waste" in disposing of your yard waste materials: "... leaves, grass clippings, garden debris, shrubbery trimmings, brush or tree trimmings less than 4 inches in diameter and 4 to 6 feet in length." Items other than those described may not be legally disposed of in specifically designated compost (yard waste) facilities.

Place yard waste in **paper yard waste bags**, containers (32-gallon or less). Full Containers may not exceed 50 pounds. Small tree limbs and brush, less than 4 inches in diameter, may be tied securely in bundles 4 feet to 6 feet in length. Please note that Michigan law prohibits mixing solid waste with yard waste for disposal. Do not place yard waste at the curb after the yard waste collection program has ended.
